South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Susan Brown

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

They aren't concerned with conserving or helping our planet. They just want to make a hefty profit for themselves, as they have been doing for years. They don't care if they people can't afford to pay their bills or stay warm in winter and cool in summer when they raise their rates.

Someone needs to stand up to them and stop them somewhere.

Sincerely,

Robin Medley
